Installation and User Guide

Thank you and congratulations on the purchase of your new Stratified Tune. Follow this document to ensure safe and proper installation and operation of your new device.

WARNINGS AND WARRANTY - PLEASE READ CAREFULLY

ALL parts are sold for OFF ROAD RACE-ONLY ground vehicle use only.

Aftermarket systems interacting with engine function are not for use on pollution controlled vehicles. Alteration of emission related components constitutes tampering under most local emission regulation guidelines and can lead to fines and penalties.

Limited Warranty

Stratified Auto is offering non-tangible non-transferable irrevocable goods, and therefore we do not issue refunds once the tuning process has started. Once the Tuning Form has been completed, the purchase is finalized. However, the purchase can be refunded prior to submitting vehicle specific information if unclaimed WITHIN 30 days. This also applies to additional options for tunes such as datalog refinements. Unused datalog refinements cannot be exchanged for another product or service. Datalog refinements can be applied to a flash tune of the same owner within 6 months of purchase. Custom Tune purchases are finalized once the first map is sent to the customer, the transaction is considered non-refundable. It is the responsibility of the customer to carry out the custom tuning process until the finalized product. Tunes can't be transferred or re-sold from one individual to another. Only the original purchaser can make use of tuning services purchased or packaged with other parts sold by Stratified Auto. Custom tunes where the customer hasn't communicated with us for over 6 months are automatically considered completed and closed off.

Stratified Tunes are non-transferable between different vehicles, vehicle owners, or Accessports. Once a tune has been saved for a particular Accessport serial number, Stratified will not resave the same tune for a different serial number. All tune updates or tune modification purchases are referenced to the original Flash or Custom tune purchase and will also be built for the same serial number, vehicle, and owner.

How to Retrieve the Base Map and Information for the Tuner

- 1. Connect battery charger to vehicles battery.
- 2. Download HP tuners software here: https://www.hptuners.com/downloads/
 - a. Download VCM Suite (BETA)
 - b. Follow software prompts to install.
- 3. Connect HP Tuners MPVI2 via USB to the computer.
- 4. Connect the other end to the vehicles OBDII port.
- 5. Open VCM Editor
- 6. Select the "Read Vehicle" button

7. Select the "Read" button to begin the process

Vehicle Reader		X
Vehicle Information:		
Vin.		
Siatua.		
Gather Info	Raad	Cose
	7	

8. Make sure to select "Do Not Read" for the ECM and "Read Entire" for the TCM.

	🗼 Vehicle Reader		×					
	Vehicle Information: 2011 Volkswagen GTI, 2.0 L, 4 Cyl							
	VIN: WVWFV7AJ0BW058878							
	Hardware: MED17.5 ECM, VAG	Skipped
